Kamaka Cave in the game ARK: Survival Evolved

ARK: Survival evolved &t; General discussions &t; Topics Details Are there any base places to ragnarok that are easy to defend and not force you to use flyers only? I play solo/ with 1 more casual player, so I need the convenience of dinos to help me collect wood, metal, stone, etc. that having access to the ground (not just accessible by flyers) is necessary because getting wyvern takes time. I would also like it if it had enough space to be able to have a handful or large dinos note: It only has to be used to report spam, advertising, and problematic (harassment, fight, or rude) posts. Page 2i.redd.it/kym6e... This article is about content exclusive DLC: Ragnarok This article is about content exclusively available on Steam, Xbox One, PS4, Epic Games.This creature, element or feature has not yet been released in the Nintendo Switch version. Viking Bay is a region between the Oluf Jungle and freyja plains. Viking Bay is also quite safe because it has more potential base sites than threats. But in the east of the bay, larger predators appear more often than in the West. Overview[edit | edit source] This biome covers rocky beaches and a bay with sunken viking longevity. Some oil nodes can be found in this area. It's easy to spawn Ragnarok, because not many dangerous things spawn here. However, beware of any creatures that descend on the shore. While dangerous creatures spawn here, Rexes, Terror Birds, Raptors and other predators can roam from the surrounding hills, making this normally quiet bay a very dangerous place for newcomers. Opal Cave and Kamaka Cave are just some of the many caves in this region. One of the entrances to the Water Tunnels can be found here. Creatures[edit | edit source] Common[edit source] Uncommon[edit source] Leedsichthys Pelagornis Pulmonoscorpius Trilobite Ichthyosaurus Rare[edit source] Basilosaurus Eur Creatures[edit source]pterid Rex Allosaurus Rare[edit | edit source] Notes[edit | source] that the bay itself is home to many Eurypterids, which are also encountered on the beaches. In addition, its proximity to other, more dangerous areas means that a staggering variety of predators, including Rexes, Argentavis, Dilophosaurus, Carnotaurus, Allosaurus, Raptors and Alpha Variants, can wander toward your campsite. If you can take creatures living at sea in the bay, you can plunge into a shipwreck and save the cargo with a pickup ax or axe. This will give you swords, crossbows, and shields. So it's a good trip if you can manage it. If you don't have access to the scuba, you can get a tribal friend to seduce danger away while you're in my boxes. Gallery[edit | edit source] Viking Bay from the mountains. Viking Bay from the ocean. View of Viking Bay and surrounding areas from Jinx Point From ARK: Survival Evolved Wiki This article is about content exclusive DLC: This article is about Only Steam, Xbox One, PS4, Epic Games.This creature, element or feature has not yet been released in the Nintendo Switch version. Kamaka Cave is a well-hidden cave in Viking Bay. This cave is a good amount of building space, and provides plenty of protection from elements as well as dino attacks. Environment [edit | edit source] Hidden behind the waterfall and skeleton of Viking Bay also near the Old River, Egil Throughway, and TyroneGon. Creatures[edit | edit source] Very Common[edit source] Sabertooth Salmon Common[edit source] Uncommon[edit source] Coelacanth Rare[edit source] Otter Resources[edit | source] Flint Metal Raw Meat Raw Fish Stone Notes[edit | edit saurce] To find this cave, you must be in Viking Bay ,find dinosaur skeletons in front of the waterfall: The cave is located behind the waterfall. Gallery [edit | edit source] For entrance to Kamaka Cave ARK: Survival Evolved &t; General Discussions &t; Topics Details Ragnarok: Viking Bay Underwater Cave System Thing is ridiculously impressive... and the above water cave system is ... I had to leave because darkness scared me. The map of GG will deviate from this cave. Reminds me of a cave movie. Half expected some deformed winged creature to come down on me.♥♥♥♥ rag bosses.... exploring this square black dark cave will be my endgame lolEDIT: I put some pictures when I setup base camps in this place... Im honestly scared to get off my Megalodon and get out of the water.... Note: It's just about using spam, advertising, and problematic (harassment, fight, or rough) posts.
